## PROFESSIONAL SUMMARY

Junior Front-End Developer with hands-on experience building responsive and user-friendly web applications using React.js, JavaScript, HTML5, and CSS3. Experienced in developing landing pages, dashboards, and booking systems for real clients on platforms such as Upwork, Khamsat, and Mostaq. Strong focus on performance optimization, clean code, and UI/UX best practices.

## WORK HISTORY

Freelance Front-End Developer – Self-Employed / Freelance

2025 - PRESENT

- Developed 10+ responsive web applications and landing pages using React.js, HTML5, CSS3, and JavaScript.
- Built a Hospital Management System handling appointment booking for 50+ simulated users with doctor selection and scheduling workflows.
- Improved website performance and Google Lighthouse scores from 78 to 95 by optimizing assets and code structure.
- Increased mobile usability scores by 25% through responsive layout improvements.
- Integrated Google Sheets as a backend to collect and manage 100+ form submissions.
- Optimized cross-browser compatibility, reducing UI bugs by 30%.
- Delivered all projects on time with 100% client satisfaction across freelance platforms.
- Collaborated directly with clients to gather requirements and implement UI/UX improvements.

## PROJECTS

### Hospital Management System (React)

- Developed a booking and scheduling system supporting 3 core workflows (patients, doctors, admin).
- Built 15+ reusable React components, reducing development time by 20%.
- Implemented responsive layouts ensuring full functionality across mobile, tablet, and desktop devices.

### English Course Center Landing Page

- Designed and developed a conversion-focused landing page.
- Integrated booking form with Google Sheets, capturing 80+ user entries.
- Improved page load speed by 35% through optimized assets.

### Restaurant & Interior Design Websites

- Developed 5+ responsive business websites.
- Improved loading speed by up to 30% and enhanced user engagement.
- Achieved 90+ PageSpeed Insights score on deployed websites.
