LinkedIn | GitHub | Portfolio

SUMMARY

Front-End Developer with 10+ months of freelance experience building production-ready React.js applications across multiple industries. Work is sourced through a digital marketing agency. Proficient in JavaScript (ES6+), HTML5, and CSS3. Committed to clean, maintainable code and responsive design. Seeking an internship or junior role to contribute to a product team.

TECHNICAL SKILLS

Languages & Frameworks: React.js, JavaScript (ES6+), HTML5, CSS3
Styling: Bootstrap, Tailwind CSS
Tools & Platforms: Git, GitHub, REST APIs, Google Sheets API, Netlify
State Management: Redux, Context API

CORE COMPETENCIES

Front-End Development (React.js) | Responsive Web Design | REST API Integration | Performance Optimization | Cross-Browser Compatibility | UI/UX Implementation | Client Requirement Analysis

PROFESSIONAL EXPERIENCE

Front-End Developer – Freelance (via Digital Marketing Agency) *Jun 2024 – Present*

- Build and deploy production-ready React.js applications for clients across various industries, with work sourced through a digital marketing agency.
- Optimize web performance through lazy loading and image compression, improving page load times across all delivered projects.
- Integrate REST APIs and Google Sheets API to support real-time data handling and automate client registration workflows.
- Convert client wireframes into fully responsive layouts using Tailwind CSS and Bootstrap, ensuring cross-browser compatibility on all major browsers.
- Manage application state using Redux and Context API for complex user flows in booking and e-commerce platforms.

PROJECTS

TechAyo – E-Commerce Practice Project Live Demo *Apr 2026*

- Built a React.js e-commerce storefront with 12+ reusable components covering product listings, navigation, cart, and checkout flow.
- Added product filtering by category and keyword search to improve browsing experience.
- Applied Tailwind CSS for fully responsive layouts across mobile, tablet, and desktop.

SpeakOzy – English Learning Platform Live Demo *Feb 2026*

- Developed a bilingual (Arabic/English) course platform serving enrolled students, with automated registration via Google Sheets API.
- Streamlined the registration workflow, replacing manual spreadsheet entry with an automated form submission process.
- Designed a course catalog with category filtering, allowing users to browse and enroll easily.

EgyCare – Healthcare Booking Platform Live Demo *Dec 2025*

- Launched a medical booking platform enabling patients to search specialists by specialty, select doctors, and schedule appointments online.

- Implemented specialty filtering and time-slot scheduling using React.js and Context API.
- Achieved cross-browser compatibility across Chrome, Firefox, Edge, Safari, and mobile with no layout issues in production.
- Added form validation to reduce invalid booking submissions and improve data quality for clinic administrators.

Interior Design Showcase Website Live Demo *Oct 2025*

- Built a responsive portfolio site for a design studio, with a focus on visual presentation and smooth navigation.
- Optimized image assets and applied lazy loading, significantly reducing page load time from a slow initial state.

EDUCATION

Bachelor's Degree in Communications Engineering *Sep 2023 – Present*

10th of Ramadan Institute
